

Understanding the New Overtime Rules

Presented by Patricia Frame, Strategies for Human Resources

Do the new rules about overtime pay and who is exempt from them have you scared or confused? Historically, small organizations have treated many employees as exempt from the overtime law because they did not want to pay overtime or did not really understand the law. In recent years, federal and state governments have been cracking down on this issue, and, in December, a new set of rules will go into effect.

We are hosting a webinar to discuss the impacts of the new regulations on small businesses. During this webinar, we will cover:

- The basics of the new changes to the Fair Labor Standards Act
- Options you may have to be in compliance with the new changes
- Why/how to review positions for overtime requirements even when they do meet the new salary test
- Any other questions you may have

This webinar is specifically targeted to small businesses and nonprofits, and all are welcome to attend.
