Virginia ID/DD Eligibility Survey – Adult Version

December 15 2015

Level of care tool for Virginia’s ID/DD Waivers for individuals 18 and older
General Documentation Rules

- Use full birth names. Do not use nicknames. (Example: [bold is the correct format] Jackie Johnson = Jacqueline Johnson or Nate Brown = William Brown)
- The form is to be completed in pen, not pencil.
- The individual’s name should appear on all pages.
- The evaluator must be a support coordinator/support coordination supervisor/case manager who has been trained in the administration of the VIDES.
- Ensure that the evaluator’s signature (full name) and professional title appear on the form. The evaluator is accountable for the scoring and may be contacted to discuss or verify the scoring of the assessment. No Eligibility Survey will be accepted without the complete name of the individual being evaluated and the complete name and professional title of the evaluator. (Example: [bold is the correct format] J. Cooper, RN = James Cooper, RN)
- The complete month, day, and year must be documented on the form as the date of completion. All three must be present.
- Consider the individual’s functioning in community environments. Complete the attached survey presuming the needed services and supports (paid or unpaid) are not in place for the individual.
- The VIDES must be completed in the presence of the individual, though others who know him/her well may be informers.
- The VIDES must be updated annually and any time there is a significant change in the individual’s life that potentially affects the results of this survey. Refusal to participate may jeopardize continued waiver services.

DEFINITIONS:

</tr>
<tr>
<td>d) Demonstrate the ability to cope with fears, anxieties or frustrations; emotionally stable? <strong>Considered Met</strong> if the individual is unable to cope with daily stressors and frustrations. The individual's overall level of emotional well-being is addressed here. It may help to assess the individual's ability to name and describe emotions to the best of his/her ability (e.g., if the individual does not communicate with words, pictures of faces could be matched with the evaluator's words for emotions in order to assess the ability to define different emotions).</td>

friends, etc., and select and participate in his/her choice of activities?
Consider **Met** if the individual is unaware of community activities such as those listed and does not demonstrate the ability to choose to participate in different venues with family and friends. This question indirectly addresses self-advocacy and the capacity for self-determination.

| g) Demonstrate knowledge of and competence for several traits of a good employee/student (as appropriate for age) such as being prompt, attending regularly, accepting supervision/guidance, and getting along with co-workers/fellow students? Considered **Met** if the individual does not demonstrate or articulate important traits of either a good employee or student (depending on age) such as being on time, regular attendance/participation, accepting supervision/guidance, getting along with co-workers/fellow students, etc. Discussing the individual’s history in a school or work setting may assist. |

| h) Demonstrate the ability to state a vocational preference and describe with reasonable accuracy the education and skills required? Considered **Met** if the individual does not express an employment or career goal (regardless of others’ impressions of its being “realistic”) and cannot describe the necessary steps in order to attain this goal. |

| i) Demonstrate the ability to protect self from exploitation Considered **Met** if the individual avoids opening the door to his/her home to strangers, avoids giving money to strangers, avoids accepting invitations from strangers, and practices safe internet behaviors while on a computer. |
